

JUNIOR COLLECTION AUTUMN-WINTER 2023-24

The **Eleventy Junior Autumn-Winter 2023-24** collection is a meeting between tailoring and functional practicality with an unmistakable college style, narrated by way of a mix and match of fabrics and colours. As is the case with the adult line, even the kid's wardrobe constitutes premium-quality looks sporting the contemporary allure that has always distinguished the brand.

The **palette** sees natural colours feature as the common denominator: shades of beige and sand accompany dusty tones, the leitmotif of each collection. Air force blue represents this season's novelty hue, combining with navy blue and mélange grey, featuring in the details so as to add the finishing touch. Burgundy is instead the perfect splash of color proposed in combination with cloud white and light beige.

The **fabrics** and **details** are inspired by the mountains and Nordic styling, emphasising the care taken when researching the materials: velvet, wool, chenille and flannel are the absolute protagonists of the Eleventy kid's winter days wardrobe.

BOY'S

The boy's wardrobe is composed of iconic, linear and immediate pieces. The elegance of pinstriped attire is played down by college-style outfits.

The cotton and wool-blend sweatshirts with terry stitch patches - to be worn under jackets or alone - bestow a sporty twist upon looks complemented by drawstring trousers. The Texas shirts - boasting different patterns - are combined with cargo pants and jeans, while the **knitwear** makes use of *variété* workmanship for cardigans, crew-neck and high-neck sweaters.

The **outerwear** offering is extensive: coats, down jackets and sleeveless jackets available with various different fits alternate with the eco shearling studded jacket, designed for both boys and girls. For an urban-chic style, we present the coarse corduroy pea coat.

The **accessories** complete the Smart Luxury wardrobe for kids attentive to detail, even in the coldest of seasons with hats, scarves and gloves, suitable for every occasion.

GIRL'S

For the winter season, the Eleventy girl is inspired by the boy's looks, re-interpreting them with uber-feminine details: turtlenecks and shirts combine with cargo trousers sporting puffed side pockets, while the college-style jacket creates a coordinated set when worn with the flounced mini skirt.

The **knitwear** is cosy and enveloping, enhancing the material aspects of the yarn with Norwegian patterns that feature on mini dresses and sweaters, perfect for wearing on chilly afternoons.

ele ven ty

The **outerwear** evokes the men's lines, transforming them: faux fur collars are added to the coats and flannel and silver lurex details combine in the nylon parkas, for a formal yet casual interpretation of elegance, consistent with the style of the *Maison*.

The **accessories** provide the looks with a feminine touch: mariner's caps, elegant berets and balaclavas are paired with gloves and scarves, sporting the colours that permeate the collection.

The **footwear** brings the two lines together: both the boy's and girl's offerings see sneakers, nappa loafers and hiking boots complete the outfits in perfect Eleventy style.
